Easy Cleaning

While the performance features of Crypton make it easy to clean, it is not self-cleaning. Use the simple instructions below to clean Crypton.

» Spot cleaning

1. Wipe away the excess mess with a dry, clean towel.
2. Mix together a simple soap and water solution. We recommend mixing ¼ teaspoon enzyme laundry detergent, like Tide® or Cheer®, with 1 cup warm water.
3. Apply the solution and agitate with a soft bristle brush.
4. Blot with a clean towel and rinse. Repeat if necessary. And remember, soap attracts dirt so make sure to rinse thoroughly.

» Extraction cleaning

For overall cleaning, we recommend periodically extracting upholstered surfaces using hot water extraction.
