FABRICS FOR REAL LIFE

Presenting NeverFear Fabrics from Z-Wovens — worry-free fabrics that can stand up to real life. With unbelievable stain resistance and cleanability, NeverFear Fabrics actually surpass industry standards for performance, to ensure your customers years of faithful service, all without sacrificing beauty, softness or luxury.

Z-Wovens created these fabrics with two-level stain protection. At the first level, spills are repelled and prevented from entering the fabric, so stains are easily removed. Should stains go unnoticed, eventually working into the fabric, a second barrier with a proprietary releasing property prevents most stains from becoming permanent.

NeverFear Fabrics; developed for the way people want to live today.
